

# Very goed.

2018/2019 CELLAR DOOR PRICE LIST

They are all goed, so we have put together a decision-making aid. The following four categories will show you which wine is right for what occasion.

## INSTEAD OF TULIPS

The perfect accompaniment on hot days, as an innocent morning wine and in any case ideal as an aperitif before an evening meal with friends. Also frequently given as a gift – instead of tulips.

## IRRESISTIBLY GOED

Wines with characteristic fruitiness and minerality, typical for Sernau. They have benefited from a good deal of time to age. No one can resist the temptation for long to indulge in their elegance.

## VAN DEN BESTEN

Our royal discipline places us amongst the best. The regent is without doubt the Burgundy blend, TOMO. But our “29”, always a varietal individualist, also earns the distinction: Van den Besten.

## EXTRA GOED

These extras are available as standard: Sparkling wine and fine brandies. The fruit used is our own with assistance provided by the esteemed Szigeti sparkling wine cellars and one of the best distillers, Franz Tinnauer.
